DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 11-15 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: a wheel rolling bearing is not a fastening structure and therefore constitutes a separate invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-15 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Response to Amendment

3. Additionally, the amendment filed 6/23/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the

Art Unit: 3676

invention. The added material which is not supported by the original disclosure is as follows: a rolling bearing for a wheel. The Examiner finds no reference to a "rolling bearing" in the specification.

Applicant is required to cancel the new matter in the reply to this Office Action.

Allowable Subject Matter

4. Claims 6-10 are allowed.

Applicants' arguments regarding the validity of the Vignotto 6,190,102 patent as a reference are persuasive. Accordingly, claims 6-10 are allowable over the prior art of record.

Response to Arguments

5. Applicant's arguments filed 6/23/04 have been fully considered but they are not persuasive regarding the new claims 11-15. As indicated above, the new claims 11-15 set forth a separate invention and are therefore withdrawn.
